Centre for Problem Gambling and Digital Dependency – Gambling Treatment

PROGRAM INFORMATION GUIDELINES

1. Prescriptions need to come in their original bottle (not expired) or blister packages from the pharmacy. Homemade dosette or pill organizers will not be permitted. All medications must be taken as prescribed and the amount taken by clients must be verified by staff prior to being ingested. All medications will be self-administered with the supervision of staff. If changes are made to your medications (new medications added, subtracted or adjusted) you are to ensure that staff is made aware of these changes at the time of your registration and/or throughout your time in the program. Please ensure that you bring a six day supply of your medications. We would also prefer that you have your medications blister packed by your pharmacy if you take a lot of medications.
2. Over the counter (OTC) or non-prescribed medications are permitted at CPGDD pending the medication arrives with you in its original container with dosage and dispensing instructions. HDGH pharmacy review upon arrival will determine if there are any issues. We do not carry or provide any stock medication on site so please bring what you think you may need. Medications will not be shared.
3. Caffeine pills/drinks (energy drinks) are **not permitted**.
4. Stimulants or opiates that are non-prescribed are **not permitted**.
5. Clients must ensure that all medical and dental needs have been taken care of before attending treatment (if treatment is required).
6. Cell phones are not permitted to be used during the program. Cell phones will be turned into the Addictions Support Worker upon intake and returned to the client at discharge. Clients are permitted to use the landline phone on the CPGDD unit for all outgoing phone calls. It is not required that you purchase any calling cards to make long distance calls (within Canada). Clients are permitted 30 minutes of phone time per day M-F and 2 x 30 minutes on S-S. This time is to be used all at once and cannot be split up. The time of your calls can fluctuate daily, however it cannot interfere with the program. **Clients are not to use pay phones in lobby or elsewhere.**
7. Food, laundry facilities and linens are provided. Please ensure that staff is aware of all diet restrictions before attending the program. Bring your own toiletries. Feel free to bring anything else that will make you feel more comfortable during your 3-week stay with us (e.g., pop, snacks, frozen meals, etc.) however, please be mindful not to bring an excessive amount.
8. Electric hair dryers, hair straighteners or curling irons are not permitted to be brought into the program (we have them here for you to use). Electric shavers are permitted. Also, smart watches and Fitbits are not permitted. Personal pleasure devices are not permitted.
9. You will be sleeping in a private bedroom with an attached bathroom. A cabinet with a lock is also provided for your personal belongings. Shower shoes/flip flops are recommended for shower use.

In the event that your attire is deemed inappropriate, you will be asked to change your clothes. **All clothing will be placed in a dryer on high heat upon arrival** (this is to prevent bed bugs). Please do not bring any clothing that you would not like to be placed in a dryer (jackets included).
17. Casual shoes and sandals are appropriate for the daily program. Footwear is required at all times during program except in your individual room. No bedroom slippers are to be worn outside of your room during the program sessions.
